

# Always on standby!

The Duo Brush from Paintpecker

Van Dam's Kwastenfabriek BV

The Duo Brush is a practical invention **created by professional decorators** for professional decorators.

**Problem solver!**

Your fitch brush always on standby!

Never dries out!

Always ready for use!

A professional brush with an integrated fitch brush inside.

Easy to use.

Simply slide the fitch brush out of the brush by pushing the button on the handle upwards.

When you do not need the fitch anymore you push the button downwards.

The round duo brush is perfect for cutting in on door frames or window frames.

With the integrated fitch brush you easily paint along glass, in narrow areas, around hinges, rubbers and other obstacles

## Advantages of the Duo Brush:

- ✓ Fitch brush always on standby
- ✓ Fitch brush never dries out
- ✓ Perfect brush for cutting in and edges
- ✓ Easy to paint around obstacles
- ✓ Not necessary to protect nearby areas or obstacles with tape
- ✓ Saves time
- ✓ Easy to clean
- ✓ One-handed use

# Easy to clean!

To prevent the fitch brush from getting stuck in the brush you need to clean both brushes at the end of the day or when the job is done!

The Duo Brush is available in two varieties. Both in size no. 16 ( Ø 30 mm )  
One for solvent based paints and one for water based paints.

Both brushes and both fitch brushes are made with top quality synthetic filaments for a superior result, smooth finish and a perfect thickness of paint.

Van Dam's  
Kwastenfabriek BV -  
Culemborg

The Duo Brush for **solvent based paints** has dark grey synthetic filaments and a dark grey tip at the back of the handle.

The duo brush for **water based paints** has light grey synthetic filaments and a light grey tip at the back of the handle.
